SUPPLEMENTAL AMENDMENT

OFFICIAL

Please amend the claims as follows:

55. (Once Amended) A teleconferencing system for conducting a teleconference among a plurality of participants having workstations with associated monitors for displaying visual images, and with associated AV capture and reproduction capabilities for capturing and reproducing video images and spoken audio of said participants, said workstations being interconnected by a first network, said network providing a data path for carrying digital data signals among said workstations, the teleconferencing system comprising:

(a) an AV path, for carrying AV signals representing video images and spoken audio of said participants, connecting the workstation of a first participant at a first location to the workstation of a second participant at a second location via a third location;

Certificate of Facsimile

I hereby certify that this correspondence is being transmitted by facsimile addressed to Examiner Dung Dinh, Art Unit 2317, Facsimile Number (703) 308-5359, at United States Patent and Trademark office, Washington, D.C. 20231, at _____ p.m. on September 11, 1996.
